ABOUT US

CNG Cengiz A.S. has been involved in the food industry since 1956 and is now proudly managed by the third generation. In 2010, the company expanded into meat processing and currently operates in İzmir Kemalpaşa, with a production facility covering 5,000 m² indoors and 16,000 m² in total area. Under the brand name ZEL, CNG has developed a strong presence in the market.

During this period, the company pioneered the mass production of marrow bone broth and became the first to introduce a range of innovative products including soups made from bone broth, collagen-enriched coffee, and collagen-infused cold beverages.

In addition to food production, CNG partners with leading brands in the food sector to provide comprehensive supply chain management services.

The company is a proud supplier of various food products and ration packages to institutions such as the Turkish Red Crescent, Turkish Armed Forces, and the Ministry of Justice, along with non-food items. CNG is also an approved supplier for NATO and the United Nations.

Operating from İzmir, Türkiye, CNG serves customers worldwide by delivering high-quality products in the most economical, timely, and health-conscious way possible.

Driven by the dedication of its export department and R&D team, CNG continues to take firm steps toward its mission: to introduce healthy and innovative products to the global market and to build long-term business relationships based on trust and growth.
